

127 / 120

C3 6.2.2

can use inverse operations to undo operations
on a coordinate grid.

Inverse operations

multiplication \rightarrow division

$$\times 3 \xrightarrow{\quad} \div 3 \rightarrow \times \frac{1}{3}$$

triple the size

$$\frac{3}{1} \rightarrow \frac{1}{3}$$

reciprocals
are the
multiplicative
inverse

$\times 1$ = stays the same

\times larger than 1 = bigger

\times smaller than 1 = smaller
